FREE (home-studies) driver education for all students in Napa County.

Thank you for your interest in our driver training program! Did You Know:

...that our driver training program is 39 years old ! It is true ! We have been teaching safe driving since 1971 !

...that we have a perfectly clean record with the Department of Motor Vehicles, and with the Better Business Bureau ! It is true !

...that ALL teens describe our training sessions as FUN, and highly educational ! It is true ! Just ask your friends, cousins, and neighbors, trained by us over the years !

Moreover, ALL of our adult trainees tell us that they have gotten their money's worth, and have made a crucial investment in their driving safety for the rest of their lives !!! "Money well spent / invested" is their most common comment. So, give us a chance ! Try us before you call anyone else ! Let us prove to you all of the above claims !

OUR BUSINESS PRACTICE

We do not schedule back-to-back appointments (also known to the pros. in the business as piggy-backing). This is when a driving school schedules a 9am - 11am appointment, for instance, and the next appointment is 11am - 1pm. The 11-1 student will have to expend his/her own precious training minutes, sometimes up to an hour, to drive the 9-11 student home. If home is in another town the 11-1 student will be put on the freeway on his/her very first day behind the wheel of a car. And the poor 9-11 student will have to suffer the agony of being driven home, on the freeway, by a 15/16-year-old who has never been behind the wheel of a car before. This is a true story, and it happens daily with serious consequences that occasionally make it to the front-pages of major newspapers such as the Sacramento Bee. WE AT ABC/RICARDO'S DRIVING SCHOOL DO NOT DO THAT. Our 9am -11am student in this example will end his/her training at home, the trainer will get a 30 minute rest, and the next student is picked up at 11:30 for an 11:30 - 1:30 appointment,and so on.

We make sure that students/parents get their money's worth. We stay busy, no time wasted (no jocks, no gimmicks)... for a full two-hour session with the exception of a short break half-way through the session.

We are competitively priced, and will match lower prices if reasonable.

Are you a nervous type? Afraid you might make a big booboo? Don't worry about it. We are the professionals, and know how to address your fears....just call 707-645-9089 or click below

Ricardo's Driving School of Napa county offers **FREE DRIVER EDUCATION** and **PRIVATE** driver training sessions.

The following paragraphs are copied from

Teen driving school, driving instruction, driving lessons, driver's ed—no matter what you call it, we are all better for having been through it. Whether you need to brush up after being a passenger for a long time or you've got a teen that is ready for the ultimate symbol of independence, driving schools in Napa County offer a wide variety of services.

To prepare for a learner's permit or driver's license test, there are two stages to the driving lessons. The DMV-licensed driving instructors offer a few hours in the classroom to familiarize everyone with the privilege of driving, the general rules of the road, the history of the auto, licensing and registration protocol, components of the automobile, and accident causes and prevention. Following instruction, students may be given examples of written DMV tests to gauge what the student has learned.

After this is complete, the driving instructors can pick you up almost anywhere around Napa County and behind-the-wheel driving lessons begin. In this stage of the driving lessons, the driving instructors teach the student about spatiotemporal awareness and the principles of inertia and momentum. The student driver learns about vision and motor coordination, maintaining space, changing lanes, smooth operation of the controls, judging their speed, and safe merging techniques.

The driving instructors in and around Napa Valley will give thorough tutorials on parking as well, including parallel parking, diagonal parking, and perpendicular parking. After a thorough understanding of the basics is established, student drivers get to apply these new skills in different settings around Napa County, such as urban driving, country driving, and freeway driving. When student drivers display sufficient skill, the Napa County driving instructors can even simulate a DMV driving test. Alternately, if you only need your driving skills refreshed after an absence behind the wheel, driving schools in Napa County offer practice tests for "brush-ups"—a great way to be certain of your skill level before heading to the DMV.

Many driving schools in Napa County can accommodate student drivers with physical or cognitive disabilities as well. And don't be nervous - the driving instructors at driving schools in Napa County are there to take care of you, and they are infinitely patient!
